

Parent Non-Permission Form

This form is for parents to designate that their child should NOT be in photos/video/articles and/or have access to internet and email at school.

If this form is not completed and returned to the school within 5 school days from the date it is sent to parent(s)/guardian(s), PSD will assume that parent(s)/guardian(s) have given permission. A new form must be submitted each school year.

Please note: This form does not apply to students participating in district and school public events, like academic competitions, performances and athletic events. They may be featured in videos and the news media.

Photos, Articles and Videos Featuring Students Published in Print and Electronic Media

Poudre School District activities and events are occasionally photographed or filmed/video recorded, or students are interviewed by PSD staff.

No confidential student information will be posted.

Information and photos published about students on the PSD district and school websites meet the following criteria:

- Students' first and last names may be included in written articles, videos and school work related to curricular and school activities.
- Students will not be identified in photos on the district website. However, articles about individual students may include a photo that identifies the student.
- School websites may opt to identify students in photos (it is a site-based decision).
- Articles, photos and videos featuring students on the PSD website may be linked to PSD social media sites like Facebook and Twitter.

If you DO NOT want your child to be interviewed, photographed or video recorded, complete and sign the form and return it to the school within 5 days after receiving it.

Do not include my child in any articles, photographs, or videos published on the PSD and school websites or in district print publications.

Access to Internet and Electronic Mail

Poudre School District recognizes the Internet's value regarding research, information and communication. PSD gives Internet access to students to use as an academic resource and means of communication. PSD students often use the Internet to complete class assignments and projects.

PSD takes measures to limit student access to Internet content inappropriate for the school environment. In addition, students are expected to adhere to strict guidelines for use of the Internet and electronic mail, as defined in the PSD *Code of Conduct*.

If you DO NOT want your child to have access to the internet or be given an electronic mail account, complete and sign the form and return it to the school within 5 days after receiving it.

Do not provide my child access to the Internet.

Do not provide my child an electronic mail account.
